TOGAF Enterprise Architecture Practitioner

Validation of knowledge, comprehension, including the ability to analyze and apply the TOGAF Standard, 10th Edition to developing, sustaining, and using an Enterprise Architecture.

I am the person who
does the work

I am the person
who develops,
maintains, and
uses an EA

I am not worried
about the theory

I am not worried about
how to structure or
maintain an EA Capability

Target Audience

- Individuals expected to apply the TOGAF approach to develop, sustain, and transform domain architectures
- Individuals actively contributing to organizational transformation
- Individuals working in Agile environments who need to understand and apply Enterprise Architecture

TOGAF Certification Program (Non-examinable)

TOGAF® Enterprise Architecture Learning Path

Purpose: EA Practitioner

To obtain the ability to use, practice, and apply the TOGAF approach generically

**I am a practitioner
and work at an Agile
enterprise**

I need to understand
how to architect with
agility

**I am a
practitioner and
need to support
my organization
through a
transformation**

I need to
understand how to
apply the method

**I am not an
architect and
want to become
one**

I need to
understand and
pass the exam

**I am an architect but
not an EA**

I need to become an EA
practitioner and learn
how to apply the method

Target Audience: EA Practitioner

I can apply the TOGAF approach to develop, sustain, and transform domain architectures

I am actively contributing to organizational transformation

I am working in Agile environments and need to understand and apply Enterprise Architecture using the TOGAF Standard

I wish to become qualified as part of my professional development

Competencies: EA Practitioner

I know how to apply the TOGAF approach to transform and manage change

I know how to apply the TOGAF method

I know how to apply TOGAF techniques

Body of Knowledge: TOGAF Enterprise Architecture
